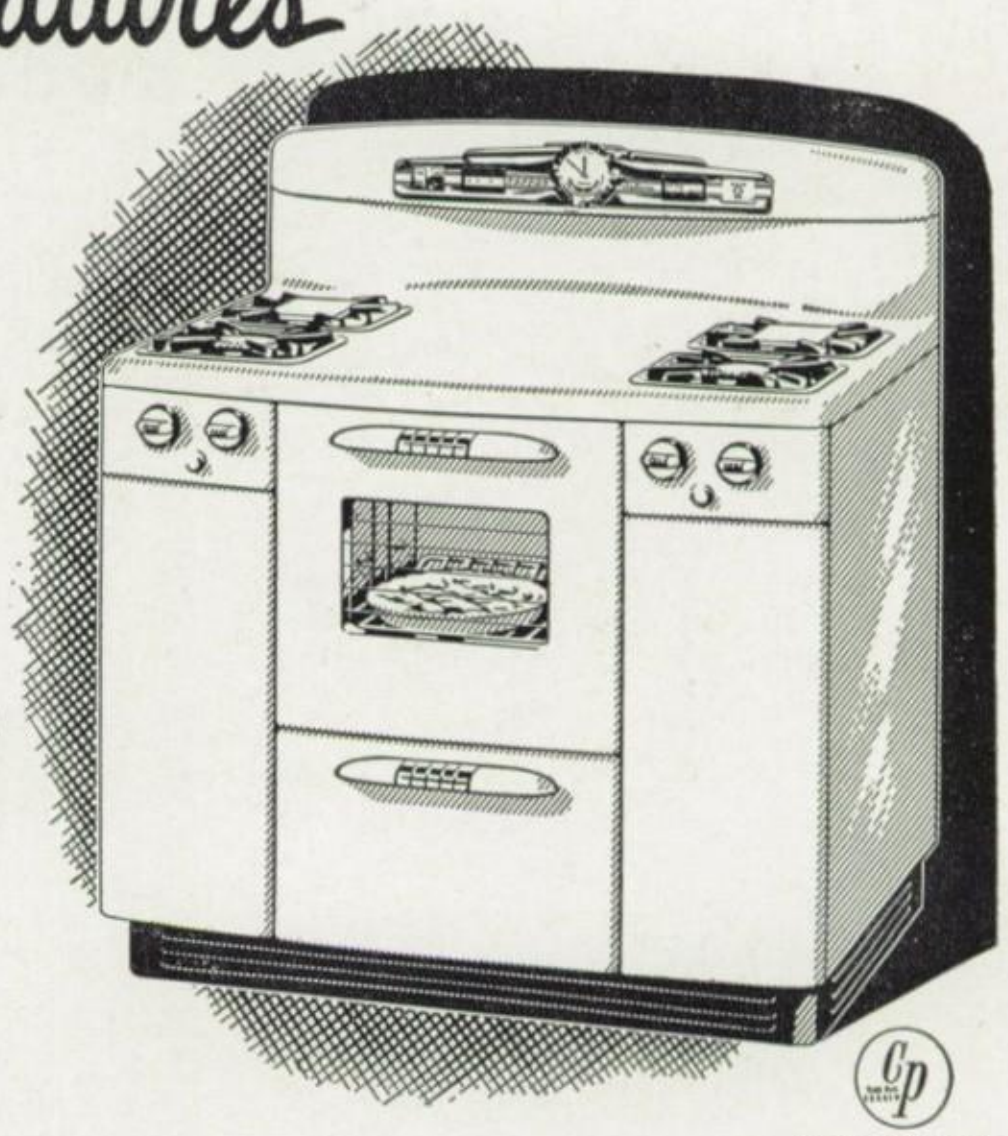
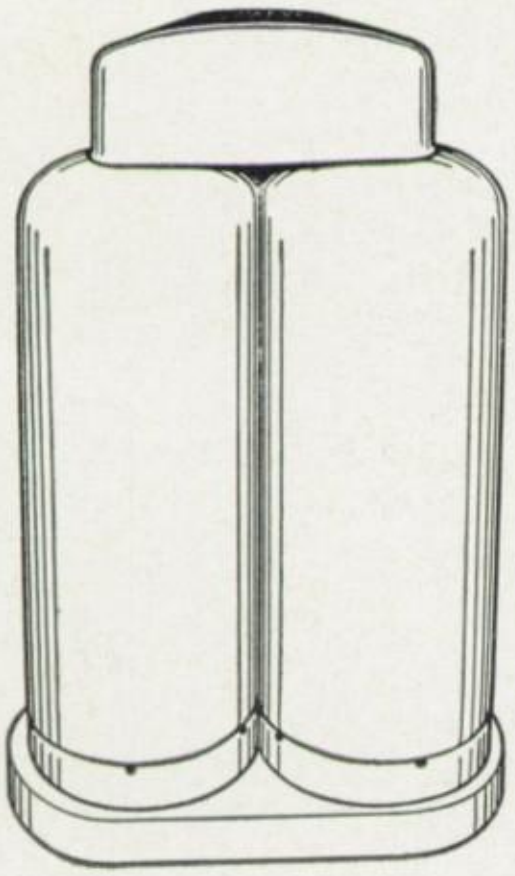
GAS RANGES



Your guide to the best in modern automatic cookery



CLEANER THAN WOOD OR COAL
CHEAPER THAN ELECTRICITY
MORE SAFE THAN GASOLINE OR KEROSENE

Wherever you may live, you too can have all the conveniences of gas. We can bring LP (Liquefied Petroleus) gas to your home—immediately. LP gas is of even higher quality than city gas, and it leaves no smudges on pots and pans. Gas has proven its superiority in food preparation. It's the fastest of all fuels, is most easily controlled, dependable and economical. LP gas will provide the exact degree of heat necessary for the particular food being cooked. It permits baking from a cold start, saving time and fuel. More than 2,000,000 women already enjoy the advantages of LP gas for cooking, and approximately a half million more will switch to LP gas within another year.

It's your RIGHT!

If you want to be a piano mover, that's your right. If you'd rather play it instead, that's your right too. Here in America you are free to choose the kind of job you want and the city you want to work in. And if you can do a better job than the next fellow — you're free to go on up the ladder. It's one of your rights that is *guaranteed* under the American system.

That's not true everywhere in the world. In some countries, everyone is told what job to do, told where to work, told how much he can make — by the government.

Even in America, some people are trying to whittle down this right — trying to make your decisions for you.

Don't let them do it. You can stop them by standing up for your rights — whenever and wherever someone tries to take them from you.

At Timken, a man can go as far up the ladder as his ability and ambition will take him. And we give him a boost with special training programs.
We want to preserve and advance the rights of the free American working man.
